SYLVAC CATALOGUE

A thriving 40 year history of constant progress in dimensional measurement.

Dear customer, Dear reader,

We are delighted and proud to present our catalogue in which you will find many novelties and innovations produced by Sylvac, including:

- Our new range of S_Dial Work digital comparators, which are already achieving huge success
- Our completely new Nano range comparators with a resolution of 0.1 micron
- A new version of comparators with an analogue display
- The first S_Dial Work comparators integrating the new Bluetooth® Smart technology for wireless transmission
- Our incredible multi-function D300S unit compatible with Bluetooth® Smart instruments, just like our Sylconnect software

Although our range has already grown by 30%, our engineers continue to further enhance this range by developing the most innovative instruments of tomorrow.

Why should you choose our products?

There are many sound arguments in our favour, particularly:

- More than 40 years' expertise and experience in the area of dimensional measurement.
- Products developed and made in Switzerland with the «Swiss Made» label, representing acknowledged proof of quality throughout the world.
- Innovative, ergonomic, durable instruments designed by professional designers.
- A global presence based on a network of efficient agents who are able to provide you with local support in more than 40 countries.
- Products that meet international standards (a number of them are instruments protected in accordance with IP67).

In order to meet an increasing demand for traceability of controls, our instruments are fitted with a data output for wired or wireless connection.

Comparators with data transmission by Bluetooth signal, developed by Sylvac, are presented in this catalogue for the first time. They mark the start of a new era in the area of quality control and confirm our position as leaders in this market.

We hope that you will enjoy looking through our catalogue and using our Sylvac instruments. Thank you for your confidence in us. We remain faithfully at your service

| Cables and softwares | 189 - 204 | Wireless transmission, cables, softwares |

Certificates

SYLVAC PRODUCTS

3-year guarantee :

The Sylvac brand is built on leading edge know-how in electronics, micro-electronics and micro-mechanics. Confident in the quality of its products, Sylvac offers a 3-year guarantee on its product range.

Error max :

The total error mentioned in our technical specifications corresponds to the maximum difference between the highest and lowest deviation from the true position within the instrument's measuring range.

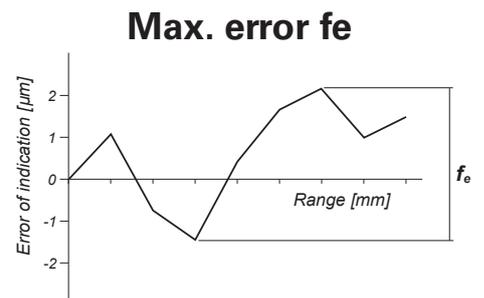

A certificate of calibration is delivered for all our instruments with a resolution of 1µm and indicates the effective maximum error of the instrument, controlled in our laboratory.

The repeatability is defined as the maximum spread of series of measurements taken at the same position by the same operator and under the same conditions.

As for now, there is no standard for digital dial indicators. The Sylvac internal standard is derived from existing standards for mechanical dial indicators.

Web site :

Up to date information as well as updated files and software can be downloaded on www.sylvac.ch

General information

SYLVAC PRODUCTS

SYLVAC PRODUCTS :

The Sylvac patented inductive measuring system is insensitive to magnetic fields and liquids on the sensor or on the measuring scale. A very low consumption system keeps the zero setting even when switched "off". This system is particularly well adapted for measuring instruments such as calipers, indicators etc...

The Sylvac patented capacitive measuring system is used for the linear probe type of instruments where the sensor is integrated in the probe. As opposed to inductive half bridge and LVDT probes, the capacitive Sylvac system can be used over a large measuring range (up to 50mm) while preserving an excellent linearity (1µm/25mm) and repeatability (0.2µm).

Characterizes the instruments whose the electronic module and the measuring system are protected against liquids. The IPXX degree defines the protection rating of the instruments.

Characterizes instruments equipped with a Smart Inductive Sensor with an extremely low power sleeping mode, which keeps its origin (last zero setting) and automatically wakes up when a movement is detected.

🚰 IP54 / 🚰 IP65 / 🚰 IP67

Characterizes instruments whose electronic module and measuring system are protected against liquids. The IPXX degree defines the protection rating according to IEC 60529.

IP54 : protected against dust. Protected against water spray from all directions

IP65 : completely sealed against dust, protected against water jets from all directions

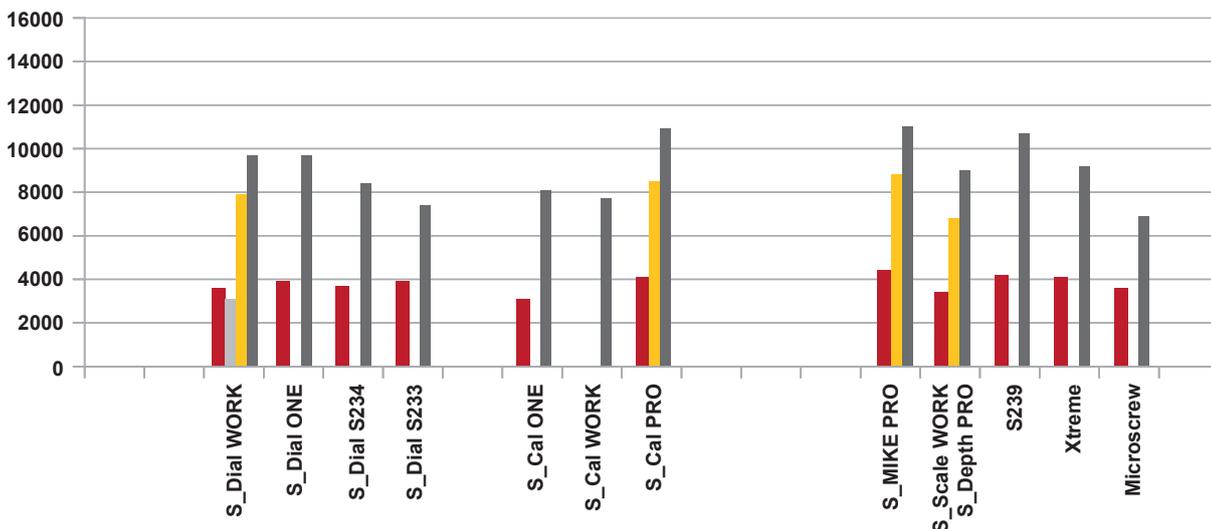

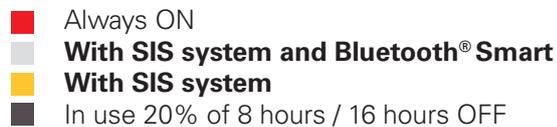

IP67 : completely sealed against dust, protected against temporary total immersion

Power and battery life

All the handtools, indicators, scales and micrometer heads are powered with a Lithium battery CR2032. If equipped with a «Power» output, the connector replaces the battery and the power is given by the PC or the display unit.

Battery lives indicated below are based on the following data :

In use 20% of 8 hours per day

General information

SYLVAC PRODUCTS

Data output types

Instruments equipped with a Proximity data output. Contactless data transfer by inductive coupling through the plastic casing

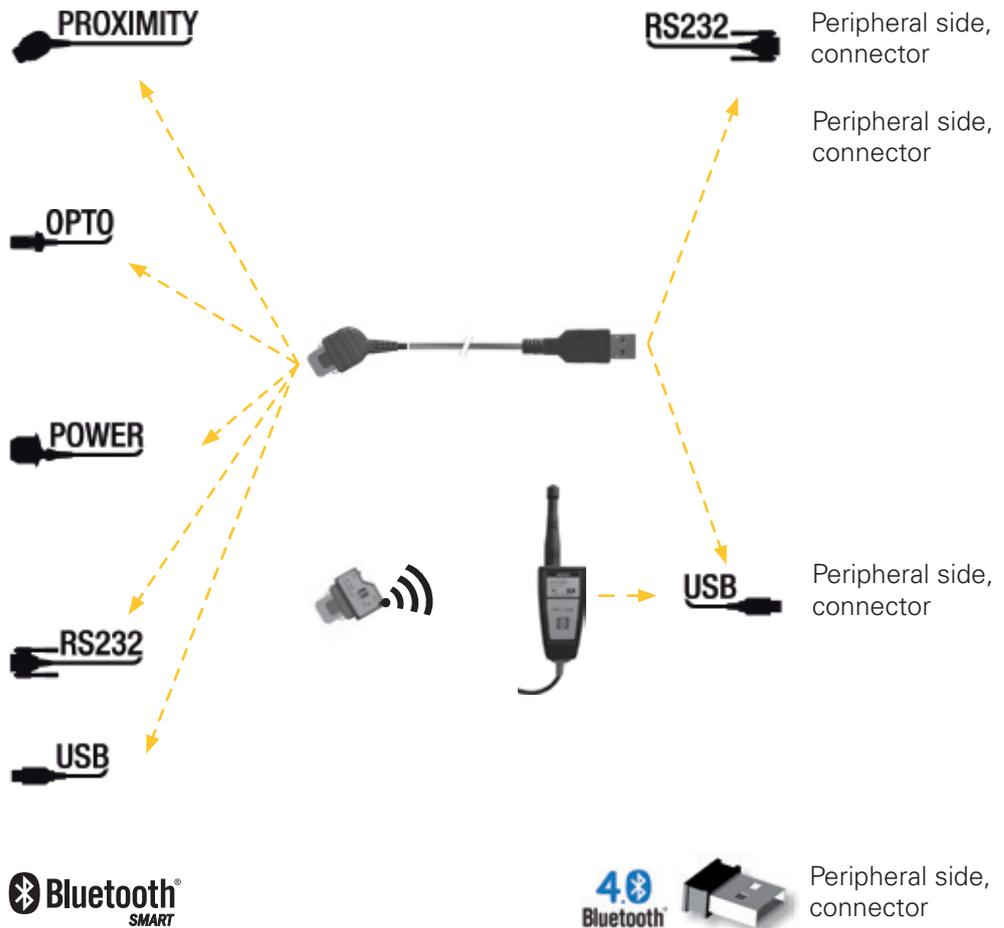

Instruments equipped with an Opto type data output. Contactless optical data transfer through a recessed window in the casing

Instruments equipped with a Power and Data connector. Data transfer is done by galvanic coupling, with power supplied to the instrument.

Instruments equipped with an RS232 data output (Sub-D9 pole connector)

Instruments equipped with an USB data output

Instruments with BLUETOOTH® Smart data output ¹⁾

¹⁾ Note: BLUETOOTH® Smart instruments and accessories are only available in countries for which certification has been obtained (UE, USA, JP, CN, TW etc.). Look at our website, www.sylvac.ch, for the list of countries that have obtained certification. If your country is not on the list, please contact your local Sylvac reseller.

HAND TOOLS

In 1981, Sylvac launched the first caliper with digital read-out on the market. Quickly, other models followed and the market of these handtools took an incredible rise.

Today, Sylvac remains a leader in this market and offers a range of calipers with digital read-out of a measurement capacity from 150 to 3000 mm. Other handtools complete this range.

Sylvac inductive measuring system (patented)

Data output

Power supply: Lithium battery 3V, Type CR 2032

Operational temperature: +5 to +40°C

mm/inch selection

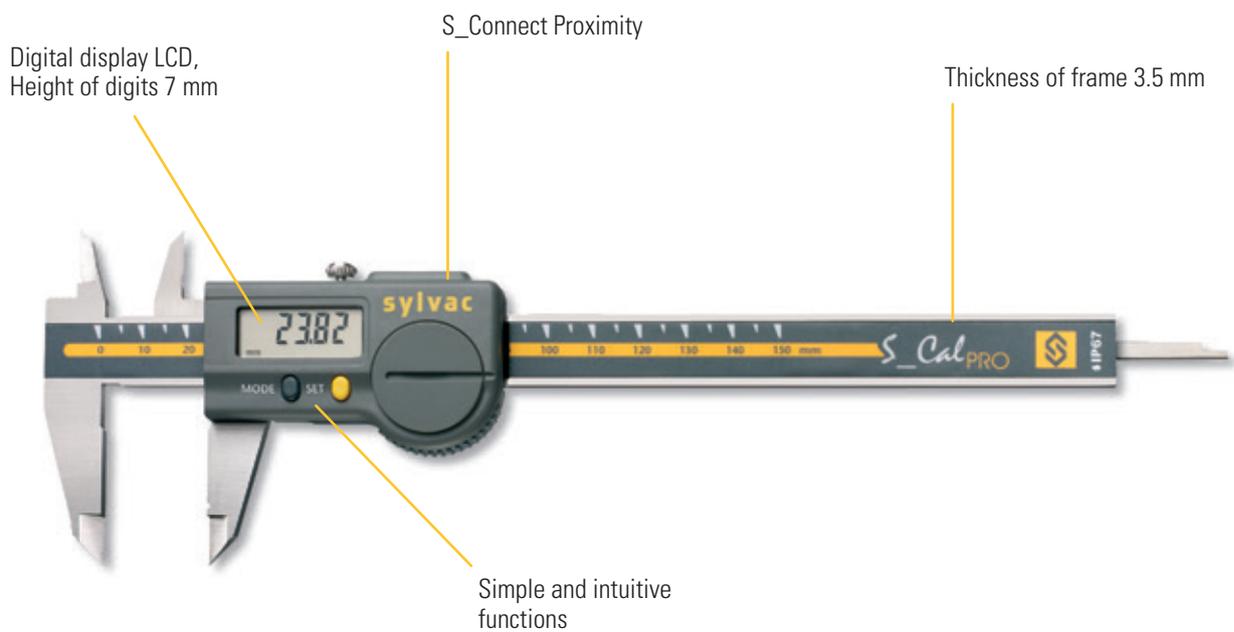

Professional Caliper

S_Cal PRO

DESCRIPTION

- Water protected for heavy-duty work with coolants and lubricants, protection rating IP67 according to IEC 60529, **even connected**
- Automatic wake-up by moving the electronic on his frame. (system S.I.S)
- Sleeping mode after 20 min. of no use. (system S.I.S)
- Position memorized in sleeping mode (system S.I.S), **absolute system***
- Maximum speed of displacement : 2.5 m/sec
- Mechanical frame in stainless steel, hardened and ground
- Thumb wheel on request (see accessories)
- Great comfort of use thanks to its ergonomic frame

Micron Caliper

S_Cal PRO μm

DESCRIPTION

- Water protected for heavy-duty work with coolants and lubricants, protection rating IP67 according to IEC 60529, **even connected**
- Automatic wake-up by moving the electronic on his frame. (system S.I.S)
- Sleeping mode after 20 min. of no use. (system S.I.S)
- Position memorized in sleeping mode (system S.I.S), **absolute system***
- Maximum speed of displacement : 2.5 m/sec
- Mechanical frame in stainless steel, hardened and ground
- Improved parallelism of internal jaws compared to version S_Cal PRO
- **Preset**
- **Resolution 0,001 or 0,00005"**
- **4 μm repeatability**

DESCRIPTION

CYLINDRICAL Ø6.5

- Automatic wake-up by moving the measuring spindle (system S.I.S)
- Sleeping mode after 20 min. of no use (system S.I.S)
- Position memorized in sleeping mode (system S.I.S), **absolute system***
- Water protected for heavy-duty work with coolants and lubricants, protection rating IP67 according to IEC 60529, **even connected**
- Measuring range 0-161 mm **covered with 5 instruments only**
- Set of 3 micrometers 0-102 mm available
- Quick displacement of the measuring spindle 12 mm / rotation
- Adjustable measuring force 5N / 10N (versions 903.030X)
- Repeatability and reproducibility never reached before
- Thimble in polyacetal-copolymer

Depth gauge

S_Depth PRO

DESCRIPTION

- PRESET function
- Automatic switching of measuring direction
- Setting of the «constant» for measurement with cylindrical or spherical anvils
- Additional bases available (see accessories)

Digital rotating display LCD

Automatic reference switching (REFI/ REFII) by the measurement inversion

Clamping knob

Base 100mm with clamping system for additional bases.

| 820.2460 | Stand for vertical application and small angular measurements |
| 820.2461 | Square for small angular measurements |

APPLICATIONS

Measurement with accessory type 820.2460

Standard measurement

Measurement with accessory type 820.2461

DIGITAL INDICATORS S_DIAL

The electronic indicators are equipped with a linear sensor and an engraved scale glued on the measuring spindle. A sensor replaces the gears. The analogic display is transformed into a digital display.

The SYLVAC electronic indicator program covers the entire range of mechanical indicators with resolutions 0.1 to 0.0001mm and measuring range up to 150mm, and with much better accuracy.

Sylvac inductive measuring system (patented)

Data output

Power supply: Lithium battery 3V, Type CR 2032

Operational temperature: +5 to +40°C

mm/inch conversion

INTERNAL MEASURING INSTRUMENTS

SYLVAC offers a large range of internal measuring instruments made of interchangeable 2 or 3 points mechanical heads and electronic units with digital display, integrated in the micrometer bodies or in pistol grips guaranteeing a sure and fast measurement.

The measuring range goes from 2 to 500mm in the Xtreme type and from 2 to 310mm in the Ultima type. Special executions are manufactured on request.

Sylvac inductive measuring system (patented)

Data output

Power supply: Lithium battery 3V, Type CR 2032

Operational temperature: +5 to +40°C

mm/inch conversion

Repeatability: $\leq 2 \mu\text{m}$

$\leq 500 \text{ mm}$

Bore gauges

Xtreme

DESCRIPTION

- Great measuring range (2 - 300 mm)
- Blind bore measurement from 2 to 6 mm and from 12.5 mm
- Fixed anvils
- UKAS certificate included with all rings
- UKAS certificate included with each instrument
- Manufactured according to DIN863
- Memorization of 3 ring gauges values
- Water and coolant resistant, protection rating IP65 according to IEC 60529
- Programmable by PC
- S_Connect Power: RS232 / USB / Digimatic / Wireless

DESCRIPTION

- Great measuring range (300 - 500 mm)
- New digital display with constant measuring force
- Interchangeable anvils
- Anvils set covering 25mm (300-325, 325-350,...)
- Only 1 setting ring to calibrate the instrument (UKAS certificate included)
- UKAS certificate included with each instrument
- Manufactured according to DIN863
- Memorization of 3 ring gauges values
- Water and coolant resistant, protection rating IP65 according to IEC 60529
- Programmable by PC
- S_Connect Power: RS232 / USB / Digimatic / Wireless

High accuracy internal measurement

Ultima

DESCRIPTION

- Measuring range from 2 to 310 mm
- Resolution up to 0.0001 mm
- Mechanical repeatability : 1µm from 2 to 210 mm and 2 µm from 210 to 310 mm
- Robust construction designed for use by inspection and machine shop
- UKAS certificate supplied with each head
- UKAS certificate supplied with each setting ring.
- Rings manufactured according to DIN 2250 part 2 (standard)
- Blind bore measuring from 12 to 310 mm
- Compatible with all Sylvac digital display
- Special heads on request (threads, grooves, splines, slot width, etc...)

High accuracy internal measurement

Ultima

APPLICATIONS

Data output through RS232

Two Ultima gauges connected with one unit
Sylvac D50S only

Adjustable depth stop (on request)

Set including 6 measuring heads, 3 master rings, 1 D50S, the handle and his probe, charging unit

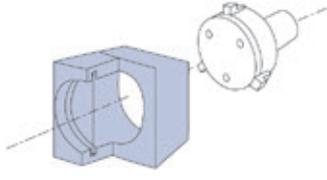

Bore gauges

other applications

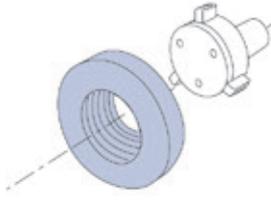

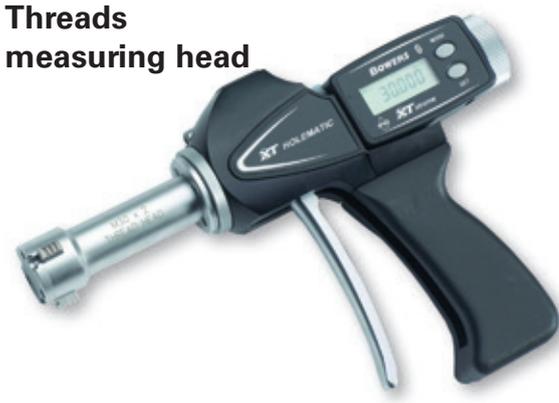

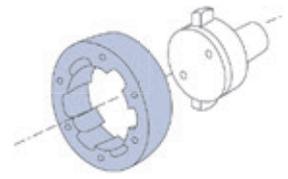

DESCRIPTION

In spite of the fact that our range of interior measuring instruments is more complete, all the applications cannot be covered by the standard series. The illustrations below express the possibilities of special applications which we can carry out.

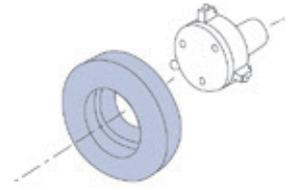

For instance, below some pictures of special applications :

2-points head with spherical anvils

Threads measurement with ball anvils

SWISS MADE

POWER

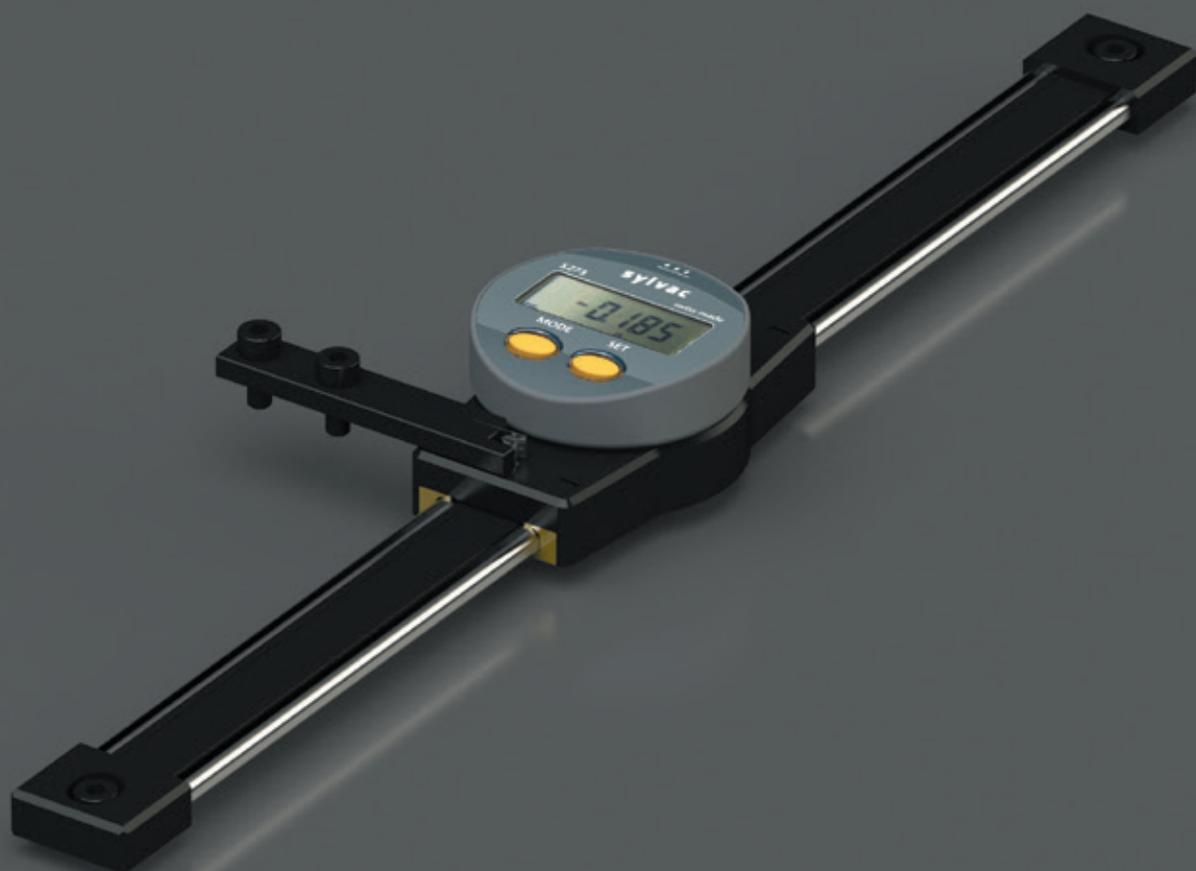

DIGITAL SCALES

SYLVAC manufactures horizontal and vertical digital scales. The measuring range goes up to 600mm, special measuring range on request. All the display units are equipped with a data output.

In complement with the digital scales, SYLVAC also offers two models of micrometer screws with digital display. They are conceived mainly for XY tables of microscopes and profile projectors. The 1 μ m resolution allows a high accuracy positioning.

Power supply: Lithium battery 3V, Type CR 2032
Operational temperature: +5 to +40°C
mm/inch conversion

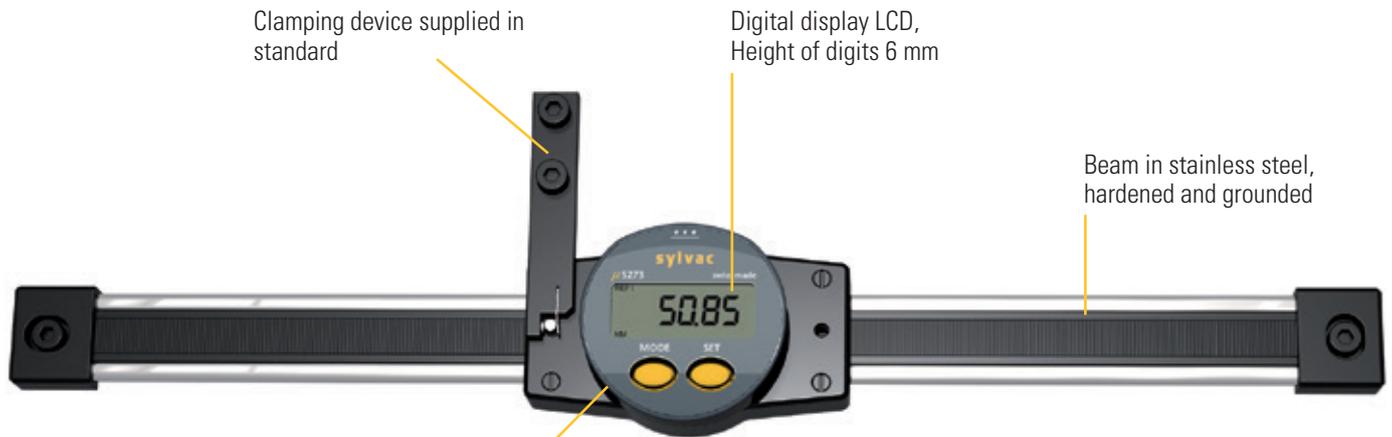

Digital scales

S_Scale WORK

DESCRIPTION

- Max displacement speed: 2 m/sec
- RS232 or USB Data output
- External power supply by Power cable
- Easy to integrate in your projects

**SWISS
MADE**

SIS Smart Inductive System

WATER RESISTANT

IP65

POWER

DESCRIPTION

Precision measuring set for new development and retro-fitting

- Easy to integrate in your projects
- Small overall dimensions
- USB or RS-232 connectivity
- Software development kit
- Software included
- Scale up to 1140 mm
- Max error of device $7\mu\text{m} / 1\text{m}$
- Programmable by PC

Container example
The ordered scales are glued on a steel plate according to technical data on the next page

Use on measuring microscope

HEIGHT GAUGE

Hi_Cal & Hi_Gage ONE

Specially developed and optimized for use in production lines, HI_CAL offers a great efficiency thanks to its large screen which can simultaneously display diameters and centerlines.

Its principal advantages consist in its ease of use, reduced dimensions of its base, its great lightness, the compatibility of the accessories with the instruments of the previous generation and the two travel speeds which offer a great comfort during the measurement of small diameters.

Inductive Sylvac system (patented)

Automatic motorized probe (patented)

Data output RS232 – USB

mm/inch conversion

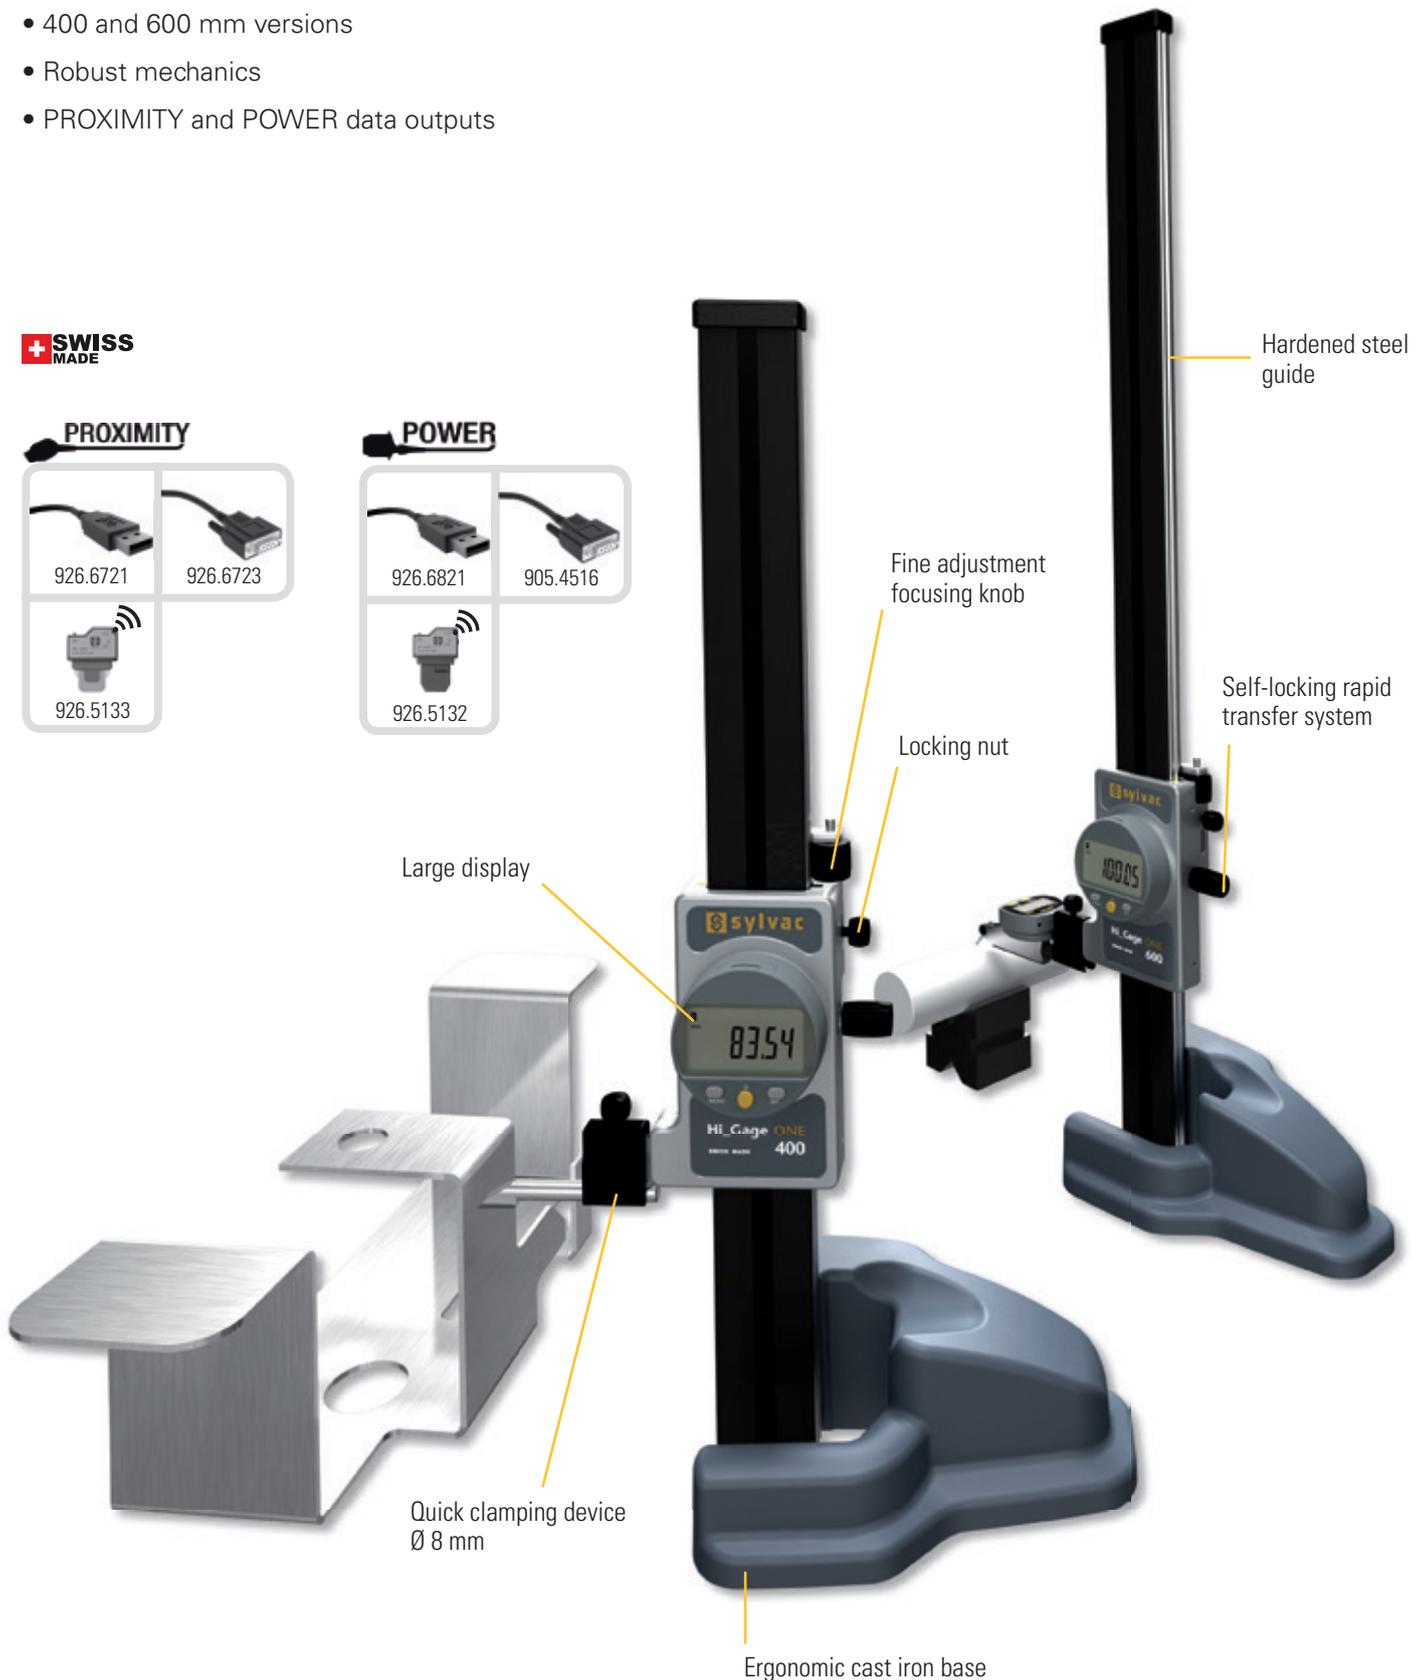

Height gauge

Hi_Gage ONE

DESCRIPTION

MEASURING PROBES, DIGITAL DISPLAYS AND BENCH TABLES

The Sylvac linear probes are based on the capacitive principle characterized by a high degree of accuracy also on long measuring ranges up to 50mm. The probes are used as measuring elements to be placed on tables, supports, bench tables, special mechanical devices or multi-gauging fixtures.

The probe signal is processed in a display unit. Sylvac offers several of them. Benefiting from the high degree of accuracy of its probes and with the aim to measure small machined parts typically used in watches, Sylvac developed a whole series of benches and tables. These supports are conceived for the control of internal, external, heights, grooves etc, starting from a few tenths to 70mm.

Absolute capacitive measuring system

Inductive measuring probes

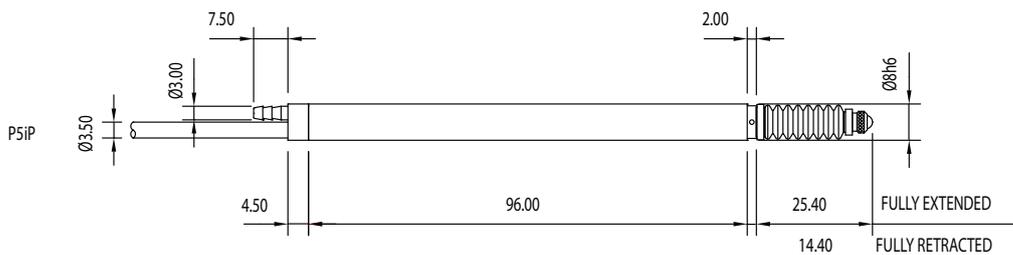

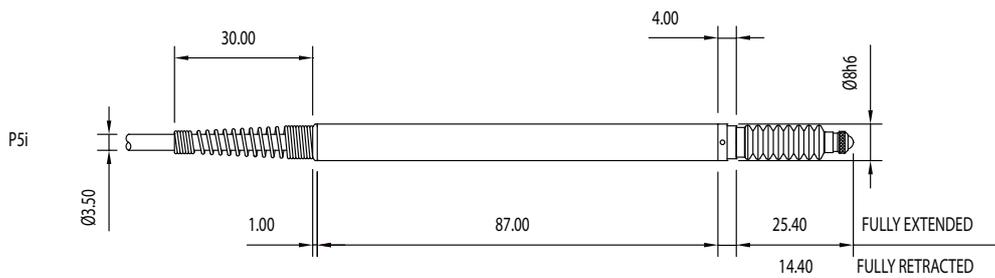

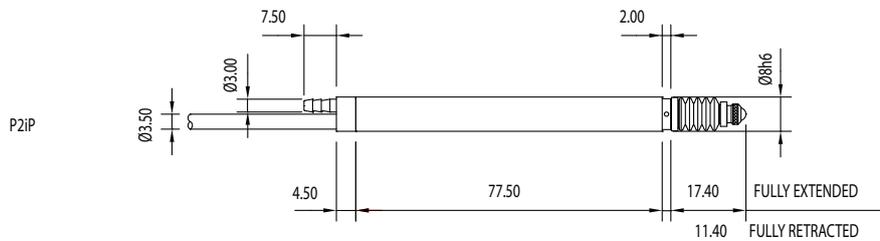

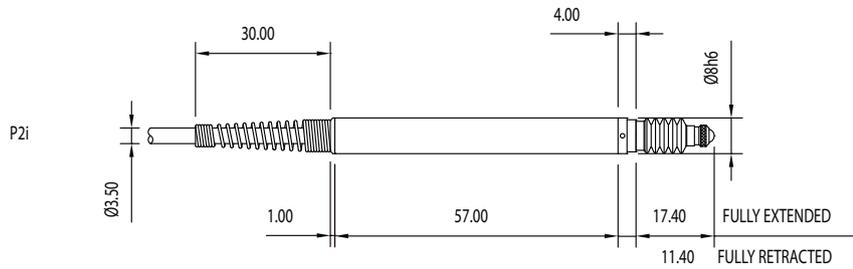

DESCRIPTION

- Inductive measuring probes specially designed for measurement by comparison
- Available in 2 versions: spring push and pneumatic push
- Long life precision bearing guidance (tested up to 13 million cycles)
- Resolution <math><0.0001\text{ mm}</math>
- Repeatability $0.15\text{ }\mu\text{m}$
- Measuring range $\pm 2\text{ mm}$ and $\pm 5\text{ mm}$
- Compatible with D300SV2, D70i and D400S units through M-Bus multiplexer units
- High data speed
- Operating temperature $+10$ to $+80^\circ\text{C}$
- IP65 protected

| Jet | N | - | 0.85/1 Bar | - | 0.85/1 Bar |

Tolerance ± 20%, measuring probe in middle course, outgoing spindle.

PNEUMATIC PROBES

Pneumatic probes are fully retracted when they are not supplied with air. For continual reliable operation and to maximise working life, the air supply should be clean and dry. 60% maximum relative humidity, filtered to better than 2µm particle size. Air pressure : 0.4-0.8 Bar, don't go over 0.8 Bar because the rubber boot can be damaged.

BASIC INSTRUMENT

- Probe according to technical specifications
- Calibration certificate
- Cable 2 m
- Stainless steel contact point with tungsten carbide ball Ø 2 mm (905.2204)

Inductive measuring probes

APPLICATIONS

Inductives probes connected to a D70I.

Inductives and Solartron probes connected to a M-Bus modul coupled with D400S.

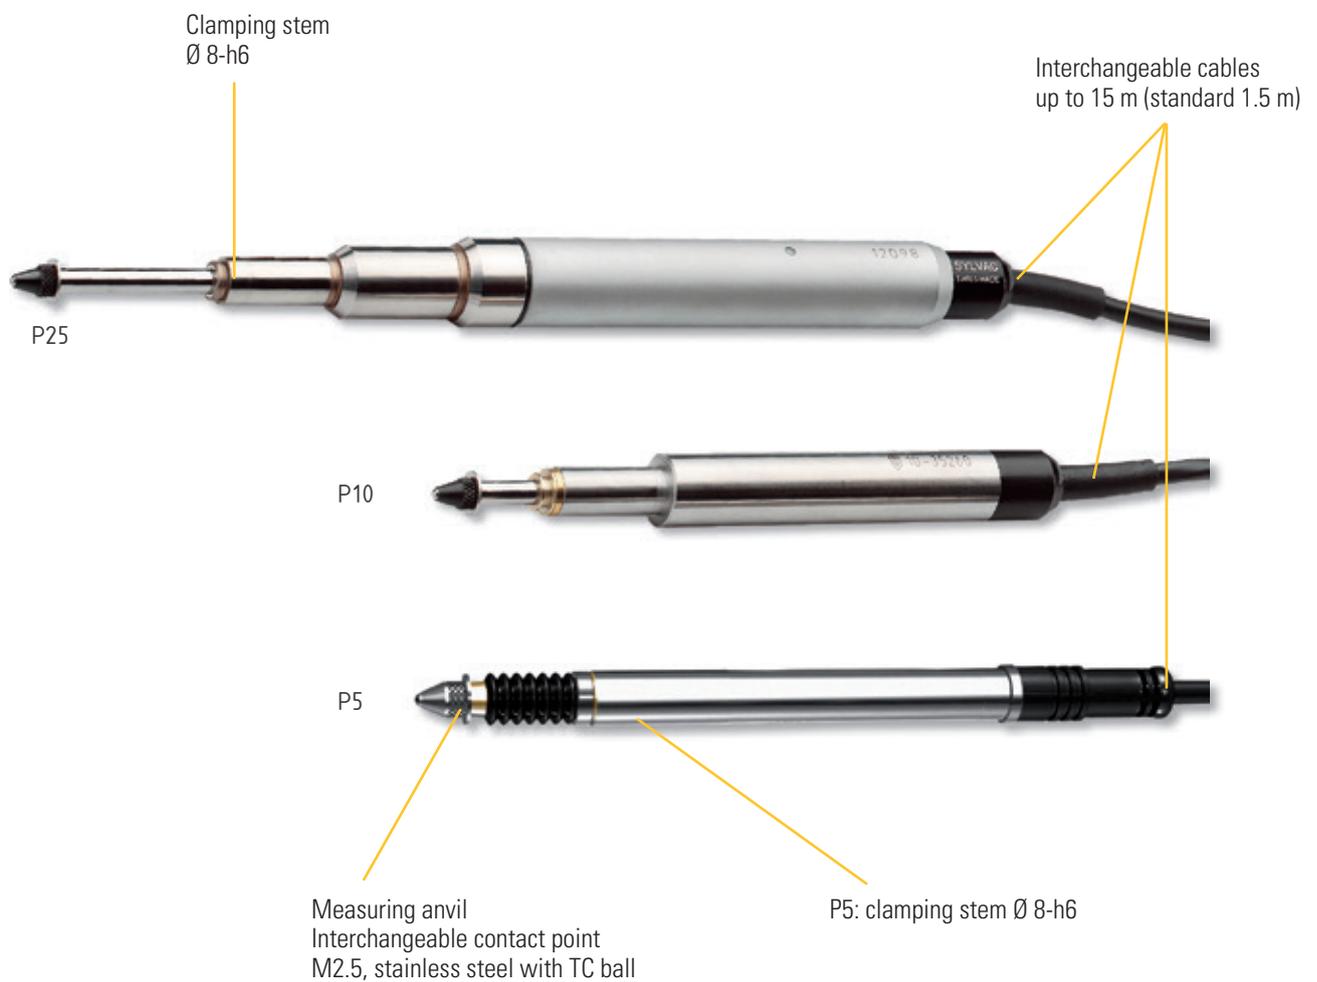

Inductives probes connected to a M-Bus modul coupled with D300S.

Capacitive measuring probes

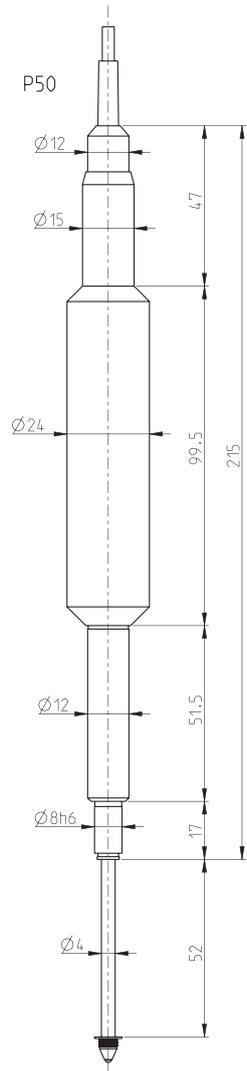

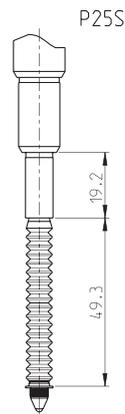

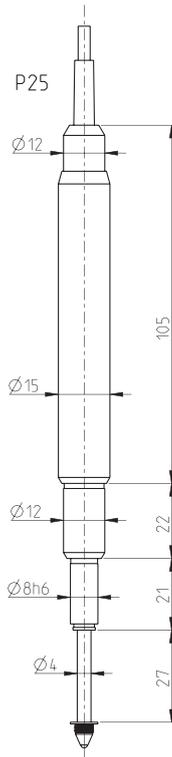

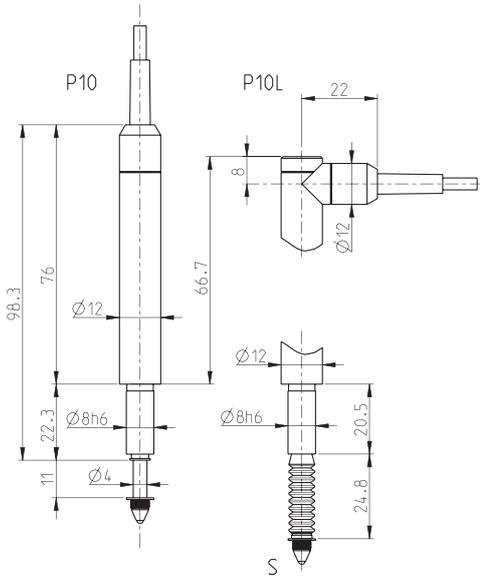

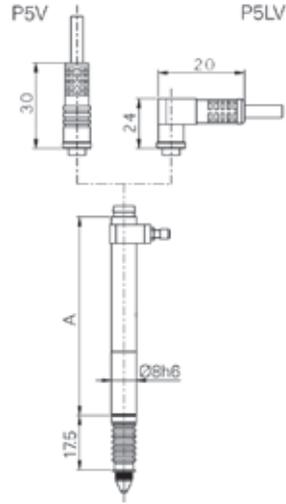

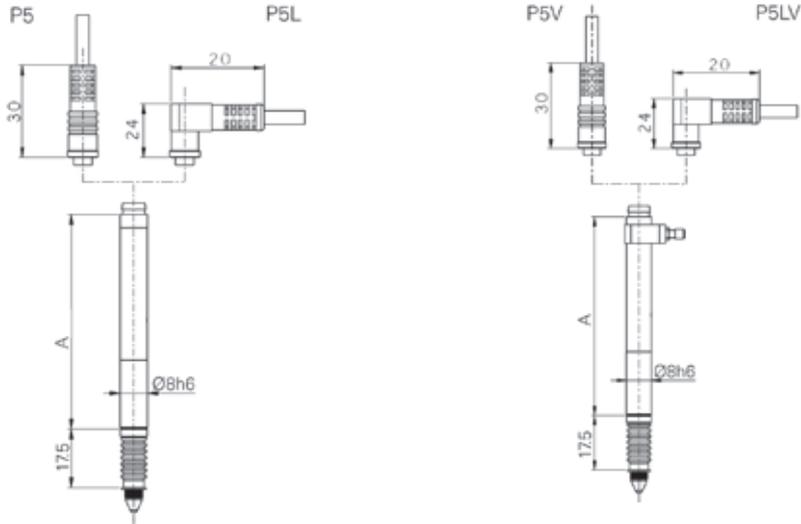

DESCRIPTION

- Capacitive absolute measuring probes, plunger type
- Resolution 0.0001 mm
- Measuring range from 5 to 50 mm
- Plain bearing or ball bearing, integrated vacuum lifter on P5
- Compatible with all Sylvac digital units
- Excellent linearity
- Interchangeable cables on most types

Capacitive measuring probes

Digital display

D70S/H/I

DESCRIPTION

- 4"3 touch screen display
- Available in 3 versions:
 - D70S for Sylvac capacitive probes
 - D70I for Sylvac inductive probes (also compatible with Tesa and Mahr probes)
 - D70H for Heidenhain ST/MT probes (Mitutoyo and Magescale probes with adapter)
- All versions with 2 probe inputs
- Display resolution selectable up to 0.00001 mm
- Simple or double display with bargraph, needle or no-tolerances
- Probe's combination : (C1, C2, C1-C2 ...)
- Direct measurement or Min, Max, Average, Max-Min...
- User friendly interface
- Very robust construction (Aluminium)
- USB connection «Keyboard» unidirectional and RS232 bidirectional
- No driver, no software to be installed
- Compatibility Excel and SPC
- Powered by the computer when connected by USB cable

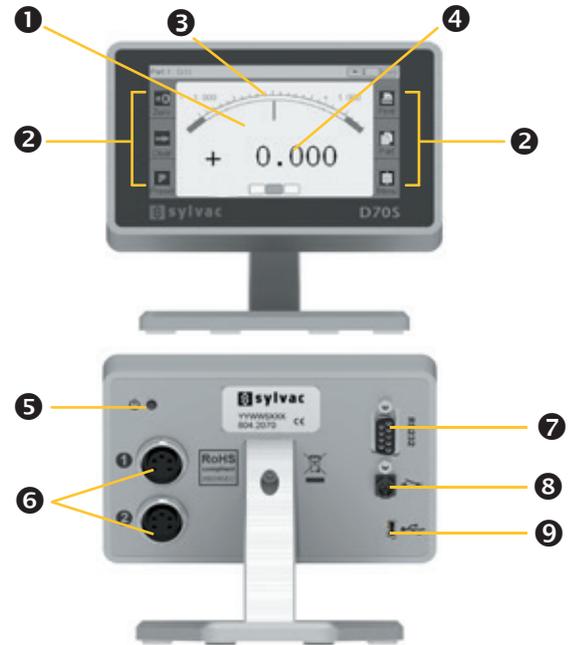

Digital display

Multiplexer unit

D200S

DESCRIPTION

- Multiplexer with 8 inputs (for Sylvac probes P2 to P50)
- Dynamic measurement (200 mes/s)
- Ideal for the layout conception of multi-gauging
- Command for pneumatic lifting unit
- Software allowing the treatment of up to 24 channels simultaneously (bargraph)
- Sending of the measured values into Excel, notepad or in specific files
- Creation of sequences for sending data
- Mathematic combinations between channels
- Standalone use possible

8 inputs for Sylvac probes

Software allowing the treatment of up to 24 channels simultaneously (bargraph)

Tolerance indicators

Connection by USB (2x) or RS232 (1x)

Opto-coupled digital output rack

Connection by USB (2x) or RS232 (1x)

D300S V2

DESCRIPTION

- Digital display with 8.5" touchscreen
- Available in 3 versions :
 - 6 USB and M-Bus
 - 6 USB and 2 Sylvac capacitive probe input
 - 6 USB and 4 Sylvac capacitive probe input
- Automatic detection of connected instruments
- New CPU unit (5 times faster than previous version)
- OS based on Windows 7 embedded
- Display and page setting fully configurable (up to 8 channels per page, up to 64 pages)
- Memorizing of setups and values
- RJ-45 Ethernet connector
- General or individual Preset
- Math functions for each channel
- Numeric, analog and statistic display
- Compatible with  **Bluetooth[®] SMART** instruments (USB dongle is required)

Large touchscreen 8.5" protected against liquids IP65

Fully configurable user interface allowing to define the number of displayed channels per screen

Ergonomic keyboard

 **SWISS MADE**

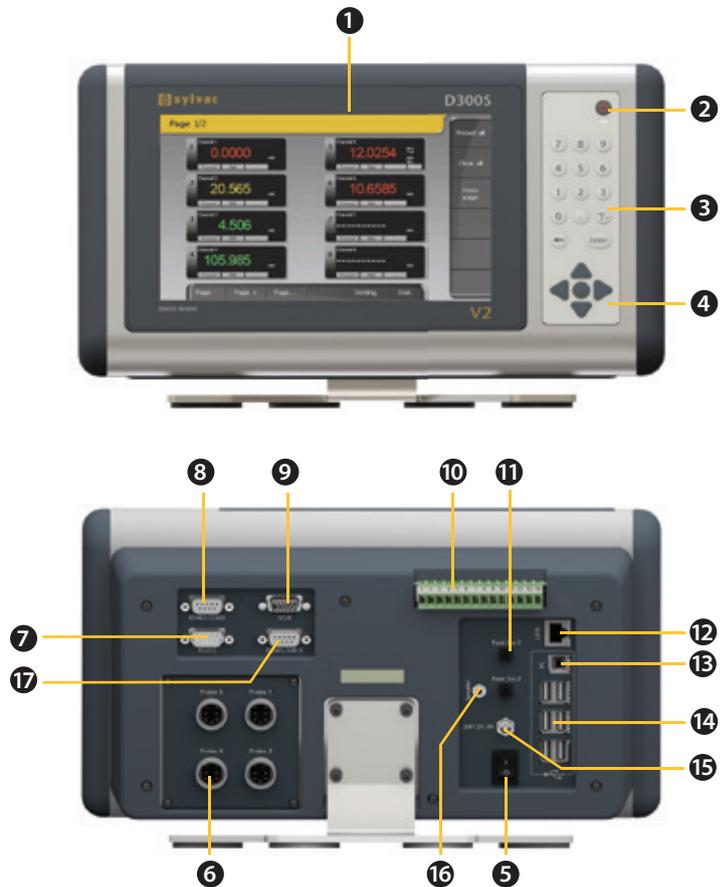

* Dongle Bluetooth[®] required

POSSIBILITIES OF CONNECTION WITH ACCESSORIES

DESCRIPTION

- Digital multifunctional unit with 7" touch screen display
- Multi-brands compatible through M-BUS multiplexers (possibility to mix the brands)
- Designed for multigauging applications
- Up to 99 input (probes, instruments, I/O) through M-BUS multiplexers
- Automatic detection of connected instruments
- Storage of up to 128 different parts configurations
- Up to 30'000 measurements can be saved by configuration
- Display of up to 32 channels simultaneously (on the same screen) or distributed up to 32 pages
- Single or multi-gauging display mode
- SPC functions (run chart, pareto, histogram with Gauss curve, etc.)
- PLC functions and PLC communication protocols
- Formula editor, free combination between all instruments connected to the M-BUS
- Configurable by PC
- Ethernet connection with Modbus TCP
- Multifunction footpedal input
- User friendly interface
- Very robust construction (Aluminium)
- table or panel mounting

Large touchscreen 7" protected against liquids IP65

Dial gauge testing stand M3

DESCRIPTION

- Suitable for testing dial gauges plunger type and test indicators
- Allows the use of 2 calibrated measuring probes (like P10 and P50) (P10 calibrated on channel 1 and P50 calibrated on channel 2)
- Testing system according to ABBE principle
- Can be used in vertical and horizontal position
- Ceramic gauges blocs
- Direct status from the instrument during checking
- Integrated standards
- Creation of personalized certificates of inspection
- Fast and slow approach speeds
- Visualization at any time of the control status
- Control of digital instruments with direct connection

SWISS MADE

RS232

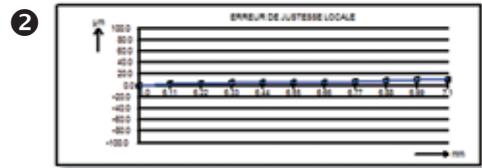

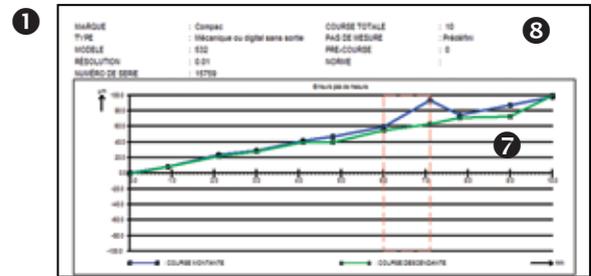

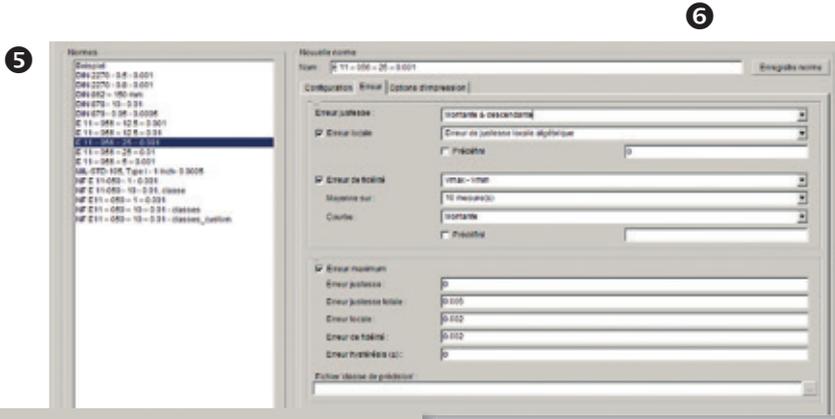

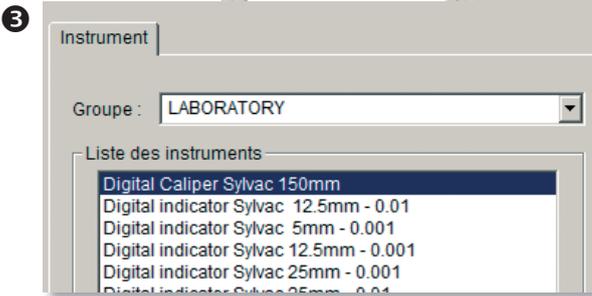

¹⁾ PC not included

Dial gauge testing stand M3

DISPLAY/SOFTWARE

- 1 Display the curves of measurement
- 2 Check the error and repeatability
- 3 Creation and management of instrument groups
- 4 Fast access to all of stored instruments
- 5 Integrated standards
- 6 Personalisation of the standards
- 7 Display the measured values
- 8 Possibility to customize the certificate

Dial gauge testing stand M3

BASIC INSTRUMENT

- Stand M3 (909.1300)
- Ceramic bloc gauges
- Thermal protection of the probe reference
- D50S PRO + probe, calibrated
- Cable RS232C (925.5609)
- Charging unit according to country (904.4010 / 11 / 12 /13)
- External contact (foot-pedal 904.4101)
- CD- with inspection software SYCOPRO II (981.7124)
- Accessory for lever indicators (909.2010)
- Instruction manual

Measuring bench table

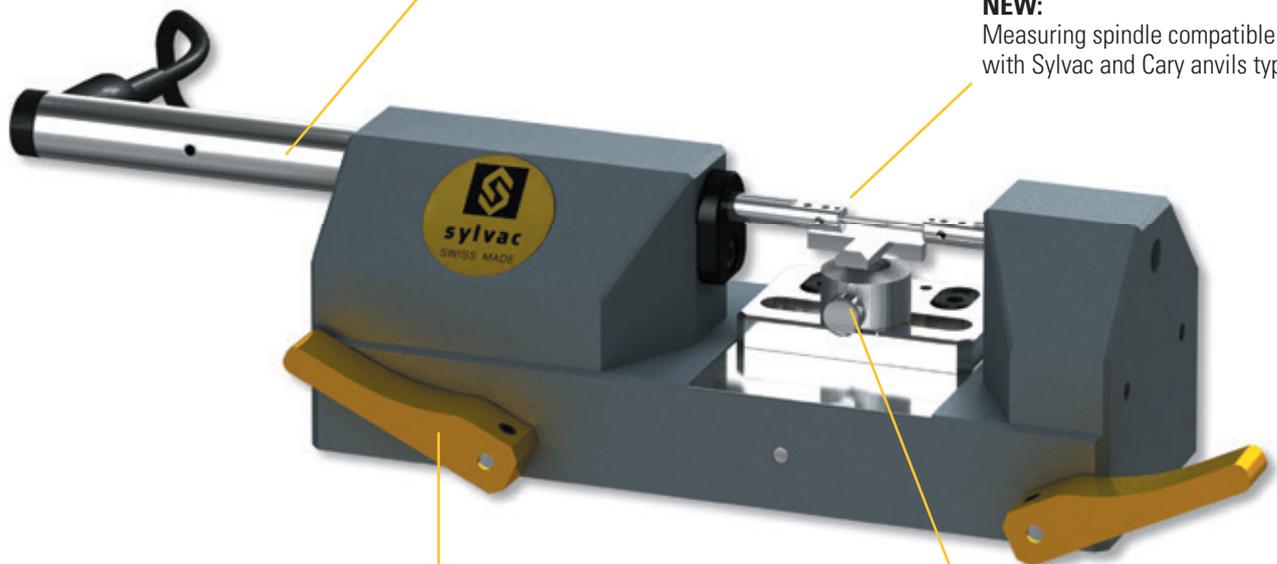

PS15

DESCRIPTION

- Small horizontal or vertical bench table designed to easily and quickly check small parts up to 20 mm
- **Measuring spindle guided by linear ball bearing**
- The measured value will be displayed either by a Sylvac digital dial gauge range 12.5mm, up to 0.0001mm resolution or by a Sylvac measuring probe P10 (P10L) linked to a digital display unit. Using a pair display unit / measuring probe an overall accuracy of 0.6 μm and a repeatability of 0.2 μm can be reached.
- This bench table can be equipped with different kind of tables as well as with several types of anvils of any shapes
- Wide choice of special applications can be found on our specific flyer «Measuring benches PS15-16-17»

Flexible device thanks to the $\varnothing 8$ mm

NEW:
Measuring spindle compatible
with Sylvac and Cary anvils type

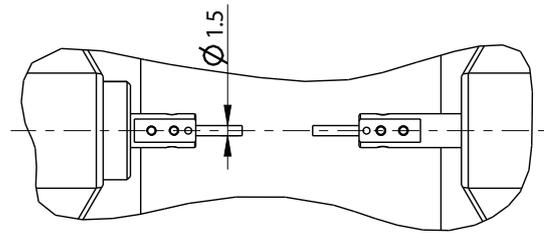

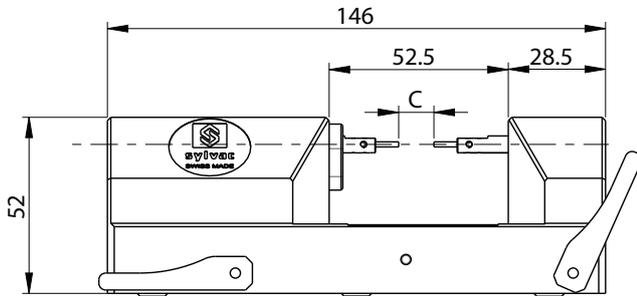

Equipped with two retraction
levers (left and right)

3 axis adjustable table (option)

BASIC INSTRUMENT

PS15BH

- Instrument according to technical specifications
- Instruction manual
- Measuring anvils Ø 1.5 mm (908.2175)
- Allen keys 2 and 2.5 mm

PS15BV+

- Instrument according to technical specifications
- Instruction manual
- Measuring anvils Ø 1.5 mm (908.2175)
- Allen keys 2 and 2.5 mm

PS15BV

- Instrument according to technical specifications
- Instruction manual
- Measuring anvils Ø 5 mm, M 2.5 (905.2201)
- Allen keys 2 and 2.5 mm

The standard anvils are not supplied with special orders including specific anvils

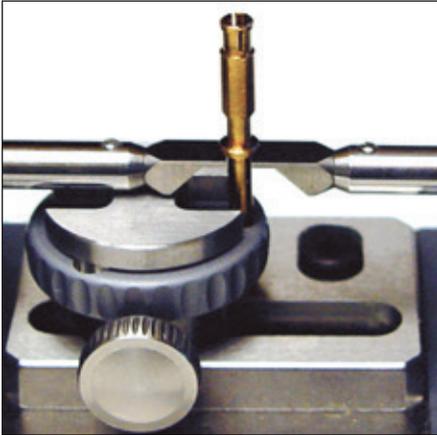

TABLES AND ANVILS

Refer to pages 158-162

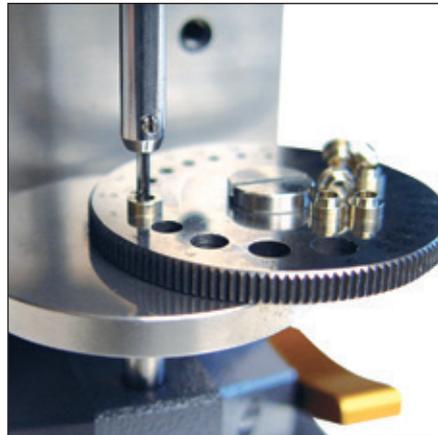

Measuring bench table

PS15

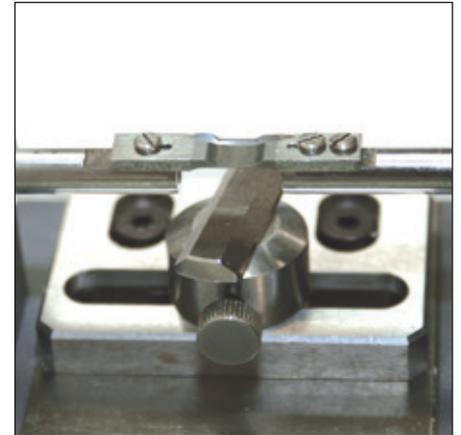

APPLICATIONS

XYZ table with plate with fine adjustment. On request

Measurement of small parts with PS15V+and rotation 25 holes support

Special anvils

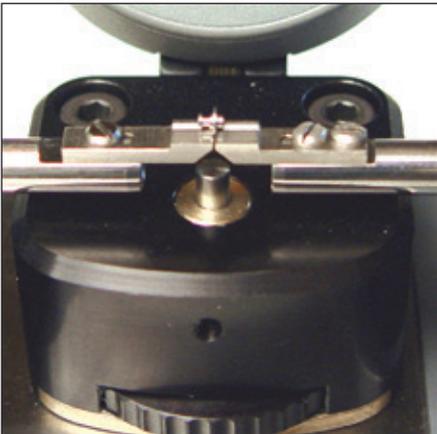

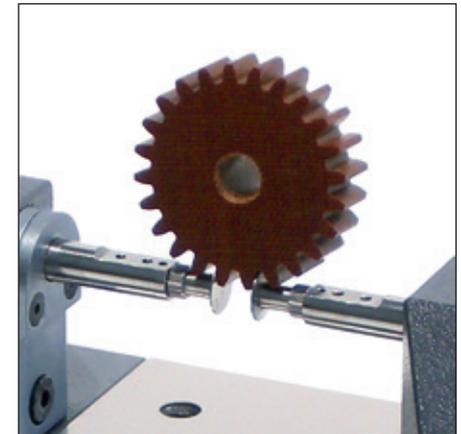

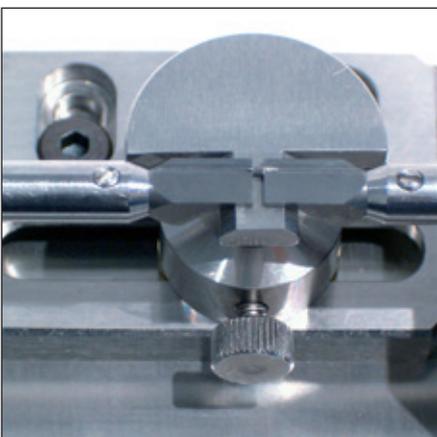

Table with plate \varnothing 3 mm and fine adjustment. Indication of the height with S233

Multi-functional measuring station

Gear measuring anvils. On request

Standard XYZ table and knife-shape anvils with V

Measuring bench table

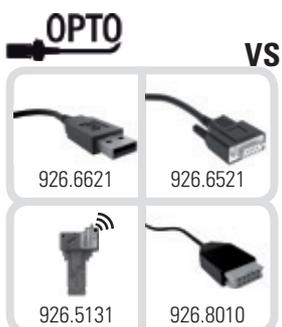

PS16

DESCRIPTION

- The bench tables “to size” PS16 are designed to check internal dimensions up to 70 mm and external up to 50 mm
- The VS and LVS versions have an integrated display as well as an opto - RS232 output
- The VP and LVP versions have an integrated P25 or P50 Sylvac probe. The measured value will be displayed on a D50S, D80S and D100S display unit
- These bench tables can be equipped with different kind of tables to fit your needs as well as with several types of anvils of any shapes
- A ball bearing, an adjustable and reversible measuring force, as well as many other features and accessories make these tables a must for your workshop or your inspection room
- Adjustable measuring force
- Data output Opto-RS/ USB
- Standard measuring anvils \varnothing 6.5 mm
- A wide choice of special applications can be found on our specific flyer «Measuring benches PS15-16-17»

BASIC INSTRUMENT

PS16 VS/VP

- Instrument according to technical specifications
- Instruction manual
- Calibration certificate
- Table not included
- Anvils Ø 6.5 mm included

PS16 LVS/LVP

- Instrument according to technical specifications
- Instruction manual
- Calibration certificate
- Table included
- Anvils Ø 6.5 mm included

PS16 VP25 3 - points Internal measurement

- Instrument according to technical specifications
- Instruction manual
- Calibration certificate LVP
- Table according to technical specification and anvils 908.2184
- Set of master ring gauges
- Special Digital display D100S for 3 – points measurement

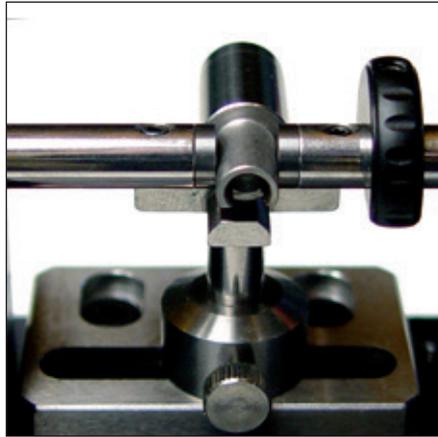

TABLES AND ANVILS

Refer to pages 158-162

APPLICATIONS

Internal measurement in 2 – points with auto-centering of the part on LVS 50

External measurement with anvils \varnothing 6.5 and XYZ table

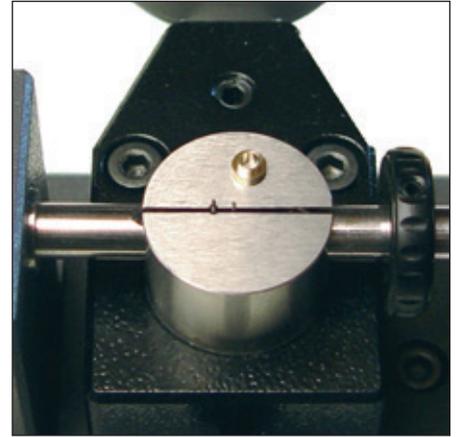

Table and anvils for internal measurement in 3 - points 1.3 - 2.5 mm

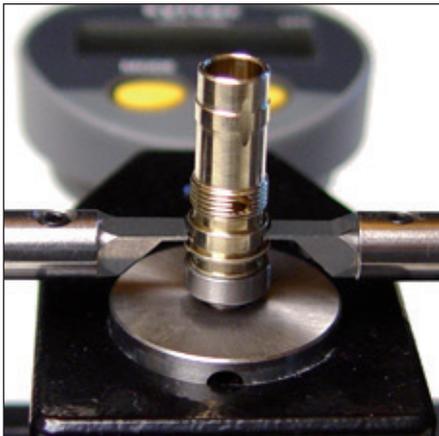

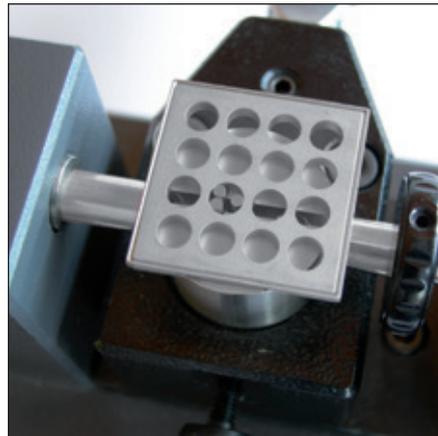

Table with adjustable plate (height). Different \varnothing plates available

3 – points internal measurement

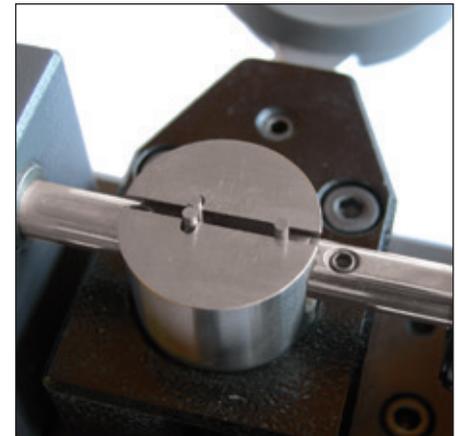

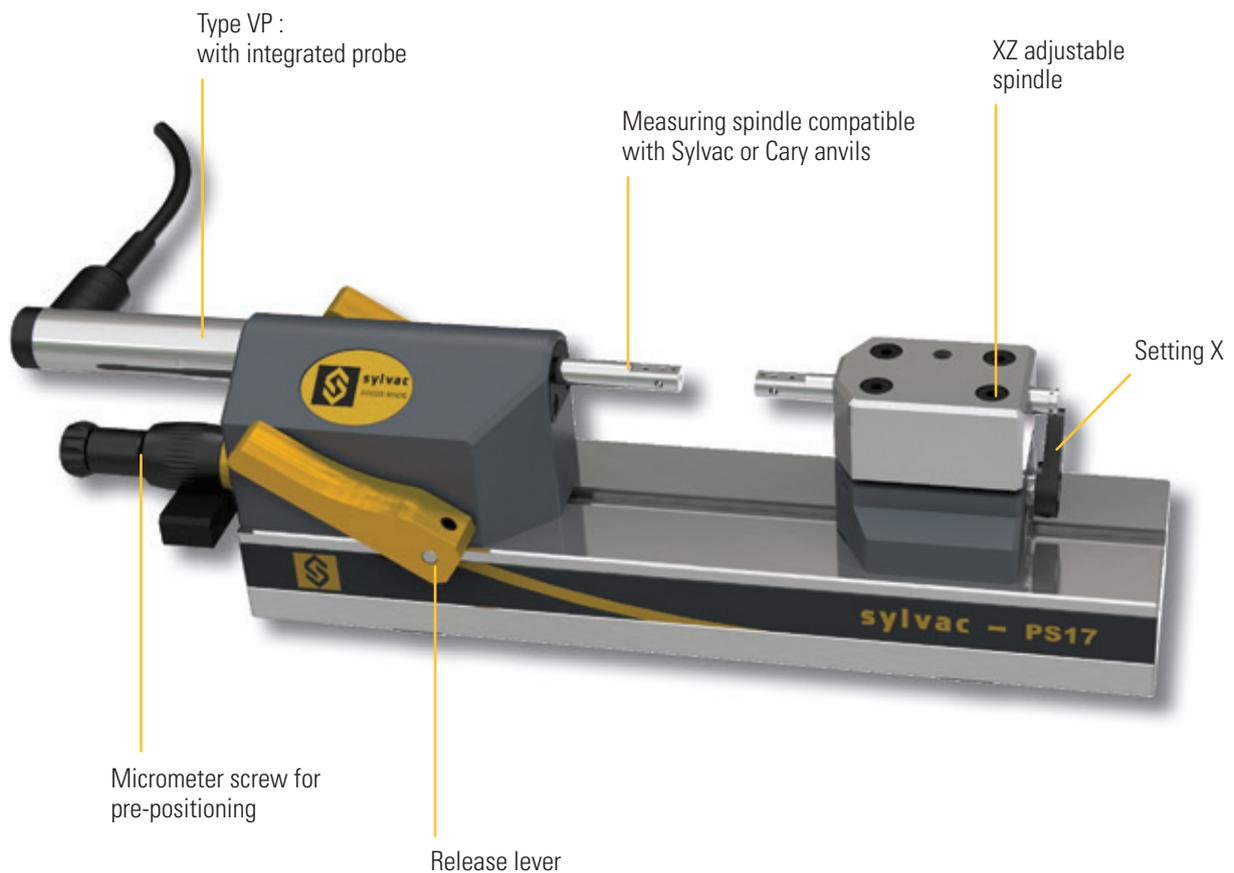

Table and anvils for internal measurement in 3 - points 2.5 - 4 mm

Measuring bench table

PS17

DESCRIPTION

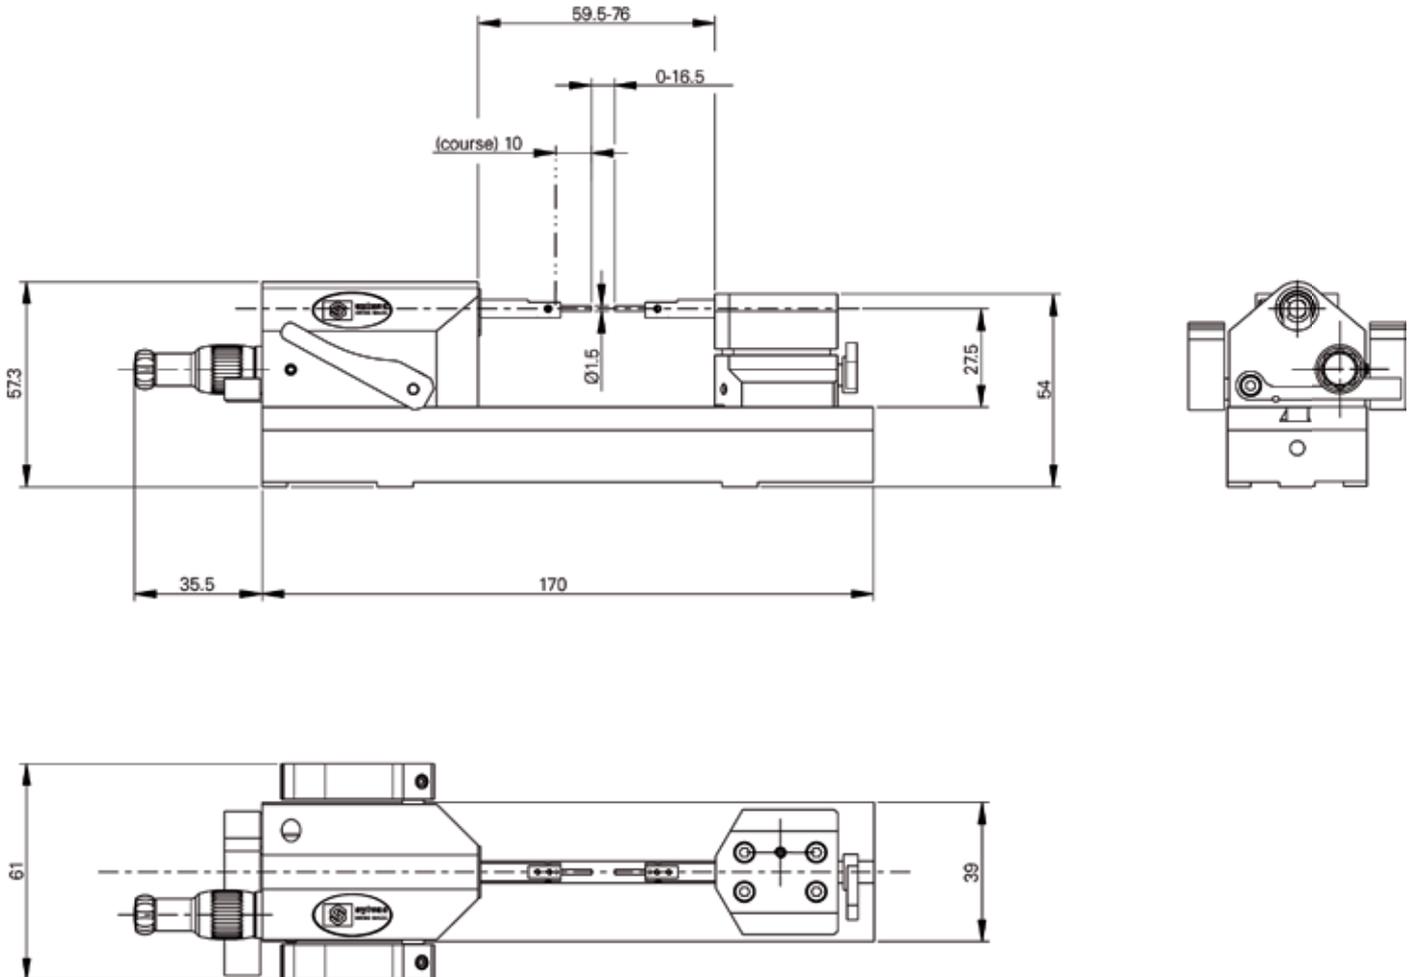

- Measuring bench with great flexibility of use
- Adjustable spindle in X and Z axis
- Accurate micrometer screw for pre-positioning
- Compatibility with Sylvac anvils (Ø1.5mm) and Cary type anvils
- Several accessories available
- 2 models :
 - Integrated P10 capacitive probe (VP)
 - Ø8mm bore to locate any other measuring devices (VS)
- A wide choice of special applications can be found on our specific flyer «Measuring benches PS15-16-17»

For further information about our mini benches please download the bench catalogue on our website www.sylvac.ch

CONNECTION & SOFTWARE

In the modern technical world, the capability of measuring instruments is not limited to the display of measured values. With connection and software abilities, our devices transform into even more precise, efficient, and productive machines.

Thanks to a great choice of connecting cables, the Sylvac instruments are compatible with the majority of data acquisition systems.

RS232, USB or Wireless data output

Wireless transmission

BLUETOOTH

DESCRIPTION

- Possibility to connect up to 8 instruments
- Duplex data transmission
- Easy programming
- Individual identification of each instrument
- Confirmation of transmission

Various softwares

DATA TRANSFER

Gage wedge

Allows to send data in the usual applications of a computer from any instruments having the following standard RS232 Sylvac transmission parameters: 4800 bauds, 7 data bits, even parity, 2 stop bits.

Available (free) on www.sylvac.ch

Win wedge

In addition to Gage wedge, allows to modify the RS232 parameters in order to adapt them to the instrument to be connected. It also makes it possible to send remote command to create keyboard short cuts to simplify programming and so on...

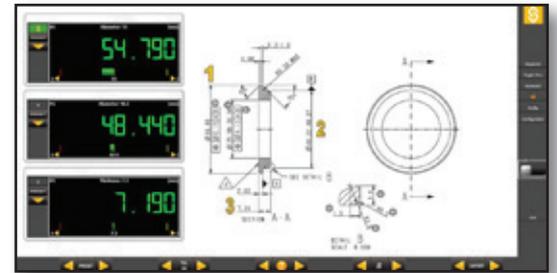

SYLCONNECT

Software allowing the connection of up to 16 Sylvac handtools to a computer, using USB cable.

No specific interface is required! The instruments can be directly connected to the USB port or via USB-Hubs available on the market.

Automatic recognition and USB port setting for every new connected instrument. A digital or analog window is automatically created for each instrument.

Jpeg picture importation function and window value resizing
Exportation into Excel in a specific sheet. Possibility to connect the needed USB footpedals to drive different instruments.

Trail version 30-days is available on www.sylvac.ch

Channel screen displayed

Multi channels screen with tolerances displayed in colour

Multi channels screen displayed in analog mode

Automatic instrument detection and configuration window

Sylconnect and Vmux Software are supplied on USB Key. The dongle is the license manager.

Vmux

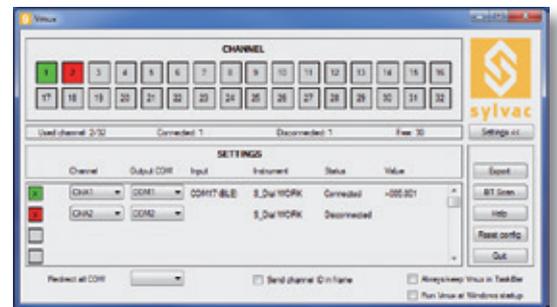

Virtual Multiplexer to connect and organize the entire range of SYLVAC

Bluetooth SMART and USB products.

Up to 32 instruments are supported by the software. For the BLUETOOTH connection, 981.7100 dongle is required and must be connected to the PC via a USB port.

Up to 8 instruments BLUETOOTH per dongle!
The protocol ensures compatibility with all SPC software using the transmission and / or the query data via the COM ports.

Sending data in EXCEL is integrated.

Try the free version Vmux LITE available on our website www.sylvac.ch
