

UNIVERSAL POWER CLAMPING SYSTEM (for Brillant 255/265/270/280/290)

The universal power clamping system for Brillant 255, 265, 270, 280 and 290 consists of a basic module which can be completed with various clamping jaw systems. You can choose between a fixed mounted and a quick-changing jaw system. The fixed mounted basic jaws LC 90 can be added to the basic module with the completing V-groove jaw 100 or flat jaw 100.

The quick change connection with pull-down studs can be equipped with the X-Clamp 100 for asymmetric workpieces or variable step jaws. Both jaw systems are combinable with customized clamping jaws.

Various accessories are available for using the universal power clamping system in side position or for supporting continuous long workpieces and reducing vibrations during the cutting process.

All modules are made from high quality steel and are surface hardened, robust and insensitive to dirt.
